10.23.2004: Latest Happenings

Please forgive the lack of structure for this news update. A couple of things will be mentioned here. For starters, please be sure to read the rules listed in our server before playing. A lot of people have been neglecting these rules, and then come into our forums whining and complaining as to why they were banned. In any unban request, be sure to be diplomatic and polite in your approach as any further immaturity or disrespect will result in an immediate ban from the forums as well. Secondly, anyone interested in getting 'promoted' up the community hierarchy needs to be active in the server and forums (at least initially) until they have gained our trust. We now have admins of different levels, however any admin with the appropriate privileges should use whatever means of disposal to enforce server rules. Thank you for your understanding in this regard and have fun in the servers.

Server IP is briefly listed here:

West Nest Frag Zone - krazedalloys.nuclearfallout.net:27015.
